

**It's not about going to school...it's about going places.**

***Purpose:***

Empowering Youth and Communities Inc. is dedicated to assisting students and their families with academic and emotional needs not met in the traditional classroom.

EYC ACADEMY blends educational and therapeutic approaches and builds partnerships to equip students with the necessary skills to be successful. All students at EYC Academy receive and personalized learning plan that allows them to work with qualified teachers one-on-one and to progress at their individual paces. This process has afforded us the opportunity to review all facets of the academy, including *why* we designed EYC ACADEMY, our leadership team and their responsibilities, our current staff and what additions are needed. EYC ACADEMY receives students from three different funding sources: private pay from families, Purchase of Service (POS) and/or MOU (memorandums of understanding) contracts with school districts or other Community Partners. EYC ACADEMY has a diverse population of students in terms of socioeconomic status, race, religion, and sexual orientation.

***Core Beliefs:***

Trust among all stakeholders is vital. Expectations influence accomplishments. A school-community partnership is essential. Change creates opportunity. High-performing leadership makes visions reality.

***Mission:***

EYC Academy provides a highly personalized learning environment which fosters critical thinking, cultivates individual potential, inspires confidence, and prepares students to be productive members of their communities.

***Vision:***

Empowering students to define their own success.

These statements express the ideals that drive our daily operations as we work to empower our learners and their families toward greater successes.

We are able to reach more students needing the type of personalized education and emotional support that EYC Academy offers with generous supporters like you.

Thank you for your donations and planned giving.
